📍 Udaipur, Rajasthan

## SUMMARY

- Computer Science undergraduate with hands-on experience in the MERN stack and cloud infrastructure. Proficient in DevOps tools and practices, including Git, GitHub and Linux. Experienced in automating development workflows and reliability. Passionate about solving complex problems, optimizing performance, and building scalable, maintainable solutions. Actively seeking impactful roles in full-stack development, backend engineering, and DevOps.

## TECHNICAL SKILLS

- **Languages** : HTML, CSS, JavaScript, C++, C
- **Frameworks** : Node.js, React.js, Express.js, Tailwind CSS
- **DevOps & Tools** : Git, GitHub, Linux, Ubuntu, Ansible, Terraform, AWS, EC2, Cloud Infrastructure
- **Databases** : MongoDB, MySQL, PostgreSQL
- **Utilities & Tools** : REST APIs, JSON, VS Code, Postman, Canva, Figma

## PROJECTS

- **Todo App**  
Built a full-stack task manager with JWT auth, React Hooks, and MongoDB. Secured APIs with Express and designed a responsive UI using Tailwind CSS. Learned full-stack architecture, secure-auth, and state-driven UI development.
- **Mobile Wallet App**  
Built a mobile wallet app using MERN stack, featuring JWT-based authentication, money transfer, and transaction history. Built RESTful APIs with Express, and designed a responsive UI with React and Tailwind CSS.

## EDUCATION

- **B.Tech – Computer Science & Engineering** **2022 - 2026**  
Techno India NJR Institute of Technology - Udaipur, Rajasthan  
CGPA - 8.15 (Till 5th Semester)

## CERTIFICATIONS AND TRAININGS

- **Certified Full Stack Web Development Training – MERN Stack**  
I completed a Full Stack Web Development using MERN training at Gras Training Institute from August to October 2024, where I gained practical experience with MongoDB, Express.js, React.js, and Node.js. The training focused on building full-stack applications, RESTful APIs, and implementing authentication and CRUD operations.
